\$1,000 TOWARDS FLOOD RELIEF

"Flying Squadrons" Collect Over Thousand Dollars and Much Clothing To Give Aid

FRATERNITIES AND SORORITIES VISITED

Many Honoraries Contribute; Dean Blanding Expresses Gratitude

A total of \$1,073.44 was collected by members of the Flying Squadrons set up by President Frank L McVey under the direction of Dean Sarah Blanding for the collection of money and clothing for sufferers in the flood area, according to a report issued yesterday by Dean

Organization of the squadrons formed January 23 in response to an appeal by Acting Governor Keen Johnson to President McVey for aid, was under the leadership of Omicron Delta Kappa, men's honleadership fraternity, and Mortar Board, senior women's honorary, assisted by members of the faculty. Cwens, sophomore women's honorary, was in charge of contributions from town women, and Dorothy Wunderlich in charge of gifts from organizations.

All fraternities, sororities, and residence halls were canvassed by the squadrons, as well as all organizations and clubs. Contributions were largely in the form of cash although many large bundles of clothing were donated. All clothing and foods were collected by de-partment of buildings and grounds trucks and ga'hered in the department's warehouse.

Of this total, \$522.67 was secured by public collection at the Tennessee-Kentucky basketball game January 23. Each squadron was assigned to cover two fraternity or sorority houses, and one each to the men's and women's residence

Organizations outside of social fraternities and sororities who con-tributed included the Woman's the Alumni association the American Association of University Professors, the Association of Women Students, Block and Bridle, Chi Delta Phi, The Kentucky Kernel, Guignol theatre, Keys, Lexington Alumni Club, Mortar Board, Phi Beta, Phi Beta Kappa, Phi Upsilon Omicron, Theta Sigma Phi, Tau Beta Pi, a group of students in the University Com-mons, University Dairy Club, Women's Athletic Association, Y. M. C. A., and Y. W. C. A.

Those in charge of the campaign expressed great satisfaction at the response that all organization made to solicitation and the full cooperation of everyone who was asked to serve on a squadron or to help in any way.

Farm, Home Meet **Planned For This** Month Is Cancelled

Due to flood conditions which made it impossible for many farm agents and agricultural men to attend, the annual Farm and Home convention, scheduled for January 25. 26. and 27 on the campus, was cancelled. The decision was made after a conference of experiment station officials and President Frank L. McVey.

Many of the farm agents who planned to attend were forced to remain in their communities to aid in relief work. Associations who were to meet in conjunction with the convention, which included the Kentucky State Horticultural society, the Holstein and Jersey cattle clubs the Rural Church council Kentucky Federation of Homemak ers and the Kentucky Beekeeper association, were also cancelled.

Chinese Situation To Be Explained

Dr. C. S. Mei, of China, who has been sent to this country by his government to study the administration of narcotic hospitals, will be the guest speaker at a special din-ner of the International Relations class on Saturday evening, Feb. 6. at 6:30 o'clock, in the University Commons. Doctor Mei will speak on "The Political Situation in

who should take the series of shots are those who have never had any of the series, those who have had one series three or more years ago, and those who have had two or more incomplete series. Anyone who has had two or more complete series need not take more.

Young Artists to Be Featured On Sunday Vesper

First Appearance of Central Kentucky Talent on Musicales

Several prominent young artists from Central Kentucky will present the Sunday Afternoon Musicale at 4 o'clock Feb. 7, in the Memorial auditorium. The concert will be open to the public without charge. According to Prof. R. D. McIntyre chairman of the committee in charge of the Sunday Musicales, it will be the policy of the committee to present each year one program devoted to talented young people in our own community who deserve recognition Several of the young artists appearing on Sunday's program have helped to make the Musicales a success by their cooperation in working with groups, such as the Glee clubs, orchestras, band, and choristers, but this will be their first appearance as soloists on the series. The young people have been se

lected from junior and senior high schools and the University. They have made their own selection of numbers to present on the program and have taken the responsibility of rehearsal and preparation en-

to feel optimistic for the future of this state and for this institution. is pleasant to be able to feel so.

AWARENESS COMING TO COLLEGIANA

At one time or another during the past year, The Kernel has advocated among other things, the passage of the American Youth Act, the abolition of loyalty oaths, and the retention by Yale of its Prof Jerome Davis.

We note with some satisfaction, therefore, the fact that at a recent meeting of the National Student Federation of America, an organization composed of student councils of 110 colleges, these three bills were among the resolutions which were passed

The other resolutions concerned aid for German refugee students, non-participation in any war fought outside our continental borders, and

It intrigues The Kernel that a group of students who represent the The tragedy that the flood brought student councils of 110 institutions with it has not been entirely for- of higher education, should go on record as being opposed to com-The pessimistic reaction which pulsory military training. Therefore, we invite students' comments on the question Perhaps, Kentucky will have a hand in national student opinion after

EDUCATION INCLUDES MAKING ADJUSTMENTS EASILY

Our parents often say they are sending us to college to "learn to make adjustments to the conditions which we will face in life, to live fully and freely, to be able to meet whatever requirements will be made of us." It is a worthy purpose and a high ideal, but most of us seldom realize that we can start toward that goal immediately.

At the first of every school year there is a certain amount of "rec tape" that has to be gone through by both the administrative force and the students. The administration, after long years of experimentation, has worked out the bes possible methods of handling registration, matriculation, room assigning and other beginning functions. However, no matter how systematically these plans are carried out, it is inevitable that some adjustments will have to be made. considering the enormous number of students who are being accommodated.

Students Who Won't Get Own Mail Present Problem to Officials

Why is it that people just won't get their mail out of their post office boxes? This question is brought to mind after three days of "checking" boxes. And what does that mean? Well it means literally taking each box in turn, 2800 of them, and seeing if the mail is in the right box, taking out old notices and taking out letters two weeks old and forwarding them to the home address, and what with the whole sehebang, well it's quite a job.

Now the question - why would eople let mail accumulate in their boxes? Can you imagine the person who doesn't get letters. The one from Aunt Susie telling all about Mary and the measles; the one from the girl (or boy) back home telling you how she's just counting the days 'til vacation comes, so she'll get to see you; and most important the letters from home with money in them; and notices for packages —yes, sometimes a package stays in the post office for a month. Surely it must be important to the person to whom it's sent. It seems an impossibility but the facts are there.

Of course we know it isn't so pleasant to come to your box and find instead of the long-looked-for letter, a notice from the dean requesting your presence at such and such a time. But things aren't like that every time, letters just will come — we should know, we put up enough of them every day.

For Digestion's Sake ... Smoke Cannels

- One reason why they all keep Camels handy

JIGOROUS, active people - in sport, society, and in the world of work - count on healthy nerves and proper nutrition to see them through. Take your cue from them and make Camel your cigarette too! When you smoke Camels at your meals and afterward, the flow of digestive fluids - alkaline digestive fluids - speeds up. Strain and tension are lessened. And you have a delightful sense of digestive well-being. With their matchless mildness, Camels are better for steady smoking, and they don't tire your taste.

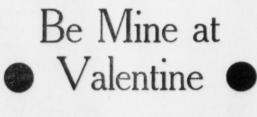

TOBACCOS!

Camels are made from finer, MORE

EXPENSIVE TOBACCOS -Turkish and Domestic - than any other popular brand

PLUGGING at the books often taxes digestion - burns up energy too. You'll welcome Camels -for their cheery "lift"-for their gentle aid to digestion. When you smoke Camels with your meals and afterward, tension eases, your food tastes better and you enjoy a sense of digestive well-being. Camels set you right. And they never tire your taste or get on your nerves.

Your Picture

will be the grandest and most welcome VALENTINE of all. Be different this year and give your photograph . . . a lasting remembrance.

him. His diet was no different from that of the typical coed except for

If at any time he felt lonely or neglected he would go for a stroll down the hall but would always return to his own little home in Room tonsburg; secretary, Herchel Ward, 11. "He never gave me a worry, says his owner, "except for one time Last year when the Wildcats played Alabama, Donnie became so excited that he ran into the linen closet. Knowing his life would be endangered if found, many of his friends sat around the door and tried to coax him out with apples cake and other food. After two hours of persuasion he nonchalantly walked

> Urith says she believes the white mouse is an ideal pet. In a short time they become tame enough to play around the room and to eat from your hand. "My feelings have been hurt several times when people insisted on calling him a rat."

After his summer vacation Don was ready for another school year so Urith brought him back. He behaved very well, but the girls this year just weren't the mousy type so they complained loudly and Don Juan's college education was cut short when Miss Desha asked that he be expelled from school.

Thus is the case of a great lover who held no fascination for the attractive Kentucky coeds, so Don Juan was sent home

Co-Ed Explains Pet Gripes of

By REBECCA PATTON

The constant pet gripe of the girls now is that boys simply won't plan their dates!

Says one coed, "For the life of me, can't understand these boys who dulge in a bit of a nap. call you up for a date and want to know what you would like to do. After all, he's the one who asked for the date and should have enough interest to plan it."

"The indefinite date is the worst!" that's that! When the buzzer rings at 8:15 and if I grab my hat and cards in that stuffy gym. coat and go flying down to greet him he is all prepared to spend a nice quiet evening in the parlor; or, if I rush down hatless and coatless I find him impatiently wanting to 'take off' to a show, then I have to hurry back to the third floor to throw on the wraps; or, if I come down in street clothes expecting to go to a show, he looks me over once or twice and wants to know if I'm not feeling well and why I decided not to go to the dance. How is one to know?

Most of the girls agree that the "What d'ya wanta do?" kind "take the cake." He comes at 7:30 and greets you with, "Well, what shall we do?" and you feel like telling him he can do anything he wants to but you're going back upstairs and spend a more pleasant evening studying history, but being the polite girl that you are, you tell him any place is O. K. by you. That's the beginning of the end! (Girls, don't ever say that if you don't want to spend the entire evening deciding to go any place and end up exactly no place.)

The other night a girl came tear-ing into the room after her date and when asked if she had a good time answered, "If you call hiking fun, then I've had a wild night! First he breezes in and says we'll walk around 'til we decide where to do. Then we walk to town and by theatre but he has seen two of the shows and the others were rotten. 'Oh well, why not window shop?' so we tour the town windowshopping. About 10:15 we start back and as we pass the Cedar Village he very eagerly asks if I wouldn't like to stop in. After that hike, believe you me, I was famished, so we went in. When Bill came back to take our order and I had my mind on a nice grilled sandwich and a malted milk Mr. Undecided beamingly asked what I'd like to drink. So, here I am! Still famished! and it's too late to order. Deliver me from another date with that walking maniac!

Lastly, there's the kind that expects you to do all the entertaining I'll admit there's room for argument here. The boy furnishes the car and the money (you hope) and he thinks the least you can do is the talking. It's alright if he doesn't expect you to do all of it. This is what one girl says about this type of date, "I've just had my first and last date with a prospective guy but a heckuva dope!

Welcome Back

Yes, we are mighty glad to be able to welcome you back to school . . . and to give you this valuable "tip." If you want to make this semester the best ever - make your regular meeting and eating place at the - -

· Claudette Colbert says: "My throat is safest with a light smoke"

"An actress' throat is naturally very important to her. After experimenting, I'm convinced my throat is safest with a light smoke and that's why you'll find Luckies always on hand both in my home and in my dressing room. I like the flavor of other cigarettes also, but frankly, Luckies appeal most to my taste."

STAR OF PARAMOUNT'S FORTHCOMING "MAID OF SALEM" DIRECTED BY FRANK LLOYD

An independent survey was made recently among professional men and women-lawyers, doctors, lecturers, scientists, etc. Of those who said they smoke cigarettes, 87% stated they personally prefer a light smoke.

Miss Colbert verifies the wisdom of this preference, and so do other leading artists of the radio. stage, screen, and opera. Their voices are their fortunes. That's why so many of them smoke Luckies. You, too, can have the throat protection of Luckies-a light smoke, free of certain harsh irritants removed by the exclusive process "It's Toasted". Luckies are gentle on the throat!

Staff Changes Made

At Training School

Three changes in the staff of the

University Training School have

been made for the second semester,

school authorities announced today

Miss Nora Belle Heflin, a graduate of Teachers' College, Columbia

will fill the place left by Miss Eth-eleen Daniels, critic teacher in the

fifth grade, who has been granted a leave of absence for the semester

to work towards her doctor's degree at Teachers' College, Columbia University, New York City.

Miss Ruby Pedigo, who filled a

temporary vacancy in the Univer-

sity high school department of commerce, has also gone to Columbia University to study. Her place in the faculty is being filled by Leslie Betz, son of Mr. and Mrs. C. A. Betz,

Lexington. Mr. Betz, who is a graduate of the College of Commerce at

the University, has also had one year of graduate work in commerci-

al education. For the past year and

a half he has been head of the de-

partment of commerce at Benham high school, Benham, Ky.

Eight Prominent Educators

Added To Summer

School Faculty

Eight prominent educators have been added to the 1937 summer

school faculty, according to an an-

nouncement by Dr. Jesse Adams director of the University summer Dr. Harry Elmer Barnes, educaor and writer who created world-

wide interest ten years ago by demanding a revision of the estimates of German war guilt, will lecture on intellectual development in

Europe and economic and social

factors in contemporary civilization.

A three credit course in modern

problems of school administration will be taught by Dr. George D.

Strayer, Columbia university, New

York City. Professor Hollis P. Guy, head of the department of com-

merce, New River State college, Montgomery, W. Va., will teach courses dealing in methods of

teaching secretarial, accounting, and commercial curriculum.

Dr. A. S. Mustard and Dr. L. J. Reed, of John Hopkins hospi al, Baltimore, Md., will conduct classes

in the fifth annual public health school sponsored by the University.

pipefuls of fra-grant tobacco in every 2-ounce tin of Prince Albert

Seeing Sport Stuff

By MACK HUGHES

HE PRESENT University basketball team, though appearing very mediocre at the outset of the season, seems to be carving out a path into a brilliant future for themselves. Through their own poor playing and the swell showing smaller teams have made against them, the Wildcats led the fans to the prediction that they would be lucky if they won any of their big games.

By defeating Michigan State 28 to 21, the 'Cats illus-

strated that they had possibilities, but their later loss to Notre Dame of the squared ring gladiators have need of development. However, this was the turning point; they began Forsythe, Paul Durbin, Fred Brindeveloping rapidly. Since that game gardner, Gragg and Combs are the Big Blue team has defeated making it tough for other contendthree of the most feared teams in the Southeastern conference. Alabama, Vanderbilt, and Tennessee. and have lost only one tilt, to Michigan State by a one point margin.

In the past few years the Wildcat teams have developed, usually their highest scorer, an outstanding player on each team. In the '33, '34 season "Frenchy" Demoisey led the Big Blue to the top of the conference ladder. During the following season, the '34, '35 year, the sensational "Big Ed" Edwards took over Demoisey's job. Edwards set a new scoring record for a single basketball season and played himself into an All-American berth. During the '35, '36 season it was Ralph Carlisle who starred in the scoring column. The present squad has as yet

shown no individual star. First one player has stood out and then another. In the Notre Dame game it was Hodge who was lauded by the fans; in the Alabama tilt Thompson stood out, and in the Tennessee scrap "Red" Hagan was outstanding. At other times it has been Carlisle Walker, or some other Wildcat who starred. In few games this year has any one player repeated as the nights' outstanding player.

The present squad seems to be well rounded out team which with a little more developing will prove to be a headache for any team they take on. However, the present team has not yet even approached the brilliance of Kentucky's last wellbalanced team, the conference champions of 1933. This team was studded with such stars as John-son, Sale, Demoisey, Davis all of whom were All-Southeastern choices, and George Yates who was a mem-berber of the All-Southern team the year before the Big Thirteen broke away from the older group. Sale was also on the seasons' All-American and Johnson and Demoisey team. Demoisey made the second string a

showed that they were badly in been working out for weeks so that they would be in the pink when they were called out. Such stars as Bob

> ers in their respective weights. Coach Frank Moseley has arranged an excellent schedule for the pugilists but the teams that they will fight will severely test their prowess. Coach Moseley is in need of more material to round out his squad and all aspirants are asked to report at the earliest possible

Many of these boxers are gaining great deal of experience fighting in the Golden Gloves tournament which is now going on. Bringardner won his first match by a knockout, while Forsythe, Durbin, and Gragg all won by technical K. O.'s in their first bouts.

The Wildcat swimmers who have been paddling around in their bathtubs recently have been getting the feel of the water. The aquatic team left Wednesday in their automobiles to meet the University of Tennesse and Maryville.

The swimmers, led by Sherman Hinkebein and Bob Freeberg, are out to repeat, and prove to every one that the University not only rates a swimming pool but that it is sadly in need of one.

A sure sign that spring is coming Coach "Strip" Striplin, new men-tor for the track team, has been very busy getting Kentucky's fine new track in shape so that he can begin putting his charges through their paces. Stars Ben Willis and Dave Rogan have been working out for several weeks.

Other sports that will soon come into their own are the ever popular golf and tennis. Aspirants for either sport should get out their rackets and sticks and get in front of the largest mirror they can find to brush up on the fine points which rated second string and honorable might have gotten rusty during the winter.

Athletic Director Chet Wynne is busy making up a golf schedule and is waiting for better weather before calling out the team. Coach H. H. ers reported for their first official Downing will hold the first meeting

PRINCE ALBERT.

FOR MEETS

The University swimming team. state champions last year, opened their tour last night at Maryville and tomorrow travels down to Knoxville to engage the University of Tennessee in a match.

From last year's championship squad, which won every meet it entered, Capt. Jimmy Westbrook, the second high point man in the state meet, is the principal loss through graduation.

There are several things interesting about this group of boys that compose the team. In order to practice they have to go to Eastern State Teachers College, since there is no pool on the University cam-

But the most amazing thing about this squad is not that they were undefeated last year, but that they paid all the bills. The money comes out of their pockets for their traveling expenses. One sees few athletic teams nowadays paying their own expenses.

This year's schedule is not completed as yet, but there will be about 10 meets in which they expect to participate. They open Eastern eason for them about Feb. 18.

Sherman Hinkebein, captain and coach of this year's team, stated "that the fellows were in good shape and are after the state title again this year, but Morehead will be

tough to beat."

The men who made the Maryville and Knoxville trip are listed below

in their probable events.

Dossett Reid, Lloyd Ramsey, Bob Freeberg, and Sherman Hinkebein in the dash.

Reid and Ramsey in the 50-yard Reid and Hinkebein in the 100-

yard match. Freeberg and John Shelton in the 220-yard route

congeniality. Come in today.

"The present-day floods are not a | Licking and possibly the Kentucky matter of man and his activities ex-cept from the point of view of dam-rier. The resulting lake formed in age," said Dr. A. C. McFarlan, head of the department of geology, University of Kentucky, recently in distance of the waters found an outlet through low spots in the upland. These wa "It is true that deforestation does ters following roughly the ice martend to decrease the proportion of gin, carved out the valley of the upwater going underground and in- per Ohio, and what was formerly manent southward drainage to the Gulf of Mexico. Thus the upper Ohio valley is a composite of tributaries of the old northward-flowng streams.

Doctor McFarlan called attention to the flooding of the west end of Cincinnati by way of the Mill Creek valley. This large, flat-bottomed valley is considered by Doctor Mc-Farlan and others to be the old part of the pre-glacial Licking river valley heading northward.

In Kentucky, Frankfort occupies the lowlands between two big meanders of curves of the Kentucky riv-This river formerly looped to the East and North of North Frankfort instead of through the middle of the city. Flooded lowlands now marks the abandoned loop.

In Louisville, during the recent flood, history repeated itself and the old Ohio river which formerly flowed through the heart of the downtown section as is indicated by excavations and borings is doing

"This change in the course of the river is another drainage modification tied up with the events of the glacial period," said Doctor McFar-"The broad lowlands on which much of the city of Louisville is built were developed because of the weak rock outcropping down stream from the falls of the Ohio. The falls themselves represent the out-crop of massive resistant lime-stone, an old coral reef."

Colors Of Moroccan Life Are On Display

Scenes in Spanish Morocco, 30 brilliant water colors painted by Fanning, are now on display at the Art center on Euclid avenue.

Mr. Fanning painted these pictures in Morocco last spring just before the revolution began in Spain. His style is rapid and he works with apparent delight in the picturesque. These are pictures of sun-drenched market squares, shadowy archways,

The exhibition will be open to the public daily from 8 a. m. to 4 p. m. through Friday, February 12.

A Few Hints Given Regarding Excuses For Cutting Classes

By JOANNA SAYLOR

Cutting classes may be your idea of luxury, but to the professor it is just another reason for trimming down that "A" for which you have been bravely dirty-nosing. The reasonable professor takes into con-sideration the lure of the Commons, the lack of sleep, the letters you have to answer, and the quiz bearing down on you. But what he can' quite figure out is why you couldn't have skipped last night's date, and cleared up all those impediments to a good standing.

The one particular person a proessor doesn't love is the one who gets near the classroom and then nonchalantly decides to saunter off. To Johnny, wandering happily away with his Ideal, it may typify love in bloom, but to the professor peeking down at him from the office window, it is just another cause con-tributing to Johnny's scholastic

One requirement on which the professor puts special stress is that you attend classes often. You may come to class only once a week for an entire semester, and still have attended classes regularly; therefore, he insists that you come not only egularly, but often. To cut class,

and still have the beams of the professor slant in your direction, it is advisable to cut discreetly, at spaced intervals, and with the least cuousness possible.

A prof's ego is injured if you cut his class to prepare for another; it is absolutely beyond his comprehension to understand how any class could rival his in importance. He appreciates being told that you cut because you considered yourself too sleepy to do his lecture justice, much more than that you skipped to prepare for a quiz the next hour.

The wise student realizes it i best to come to class and assume an expression convincing the professor that he is a second Cicero on the art of oratory, even though his spirit is already at the campus hop while the prof is happily discussing the Roman Empire.
